

Hi, I'm so excited to meet my new family I can't sit still!

My two legged mom wanted me to tell you, my new family about my feeding schedule.

I'm use to being fed hard kibble at 6 am , 12pm and 6pm. It may take me a few days to get use to your schedule but I will in no time !

My two legged mom plays with my ears , feet , lips and opens my mouth everyday to get me prepared to be a good dog. Although I'm not a huge fan I'm getting use to it!

My new family will need to continue this daily so I can be such a good puppy and dog when I'm all grown up !

I should have my nails trimmed every week or two week so they stay nice and short . I've had them done a few times already and getting use to it slowly.

My two legged mom has put some gross tasting stuff in my mouth four times now! She tells me its good for me so I don't have worms yukkk, I don't want to have worms.

I have also been to the vets to get checked out and these needles , they weren't fun but I know they are just to keep me from getting sick.

Mom says my next ones should be 3-4 weeks apart.

I'm told I shouldn't have my Rabies at the same time as my other shots and to wait until I'm over 6 months if possible as my breed can be vaccine sensitive.

My two legged mom would love for you to join this Facebook group called Fantasy Great Dane's family page so that we can see my siblings grow and keep in contact with everyone if wanted.

My Puppy Pack !

In my puppy pack you will find the following:

My certificate for 30 days of free pet insurance. Please make sure to active with in 24 hours or its invalid!

The food I'm eating, Purina focus large breed adult.

30, 500 mg Vitamin C's please give me 1 every day to help proper leg growth and to prevent knuckling, until I'm over 6 months.

Leash and collar.

Toys , I just LOVE playing with my toys!

A bag of treats for when I'm good , but I think I'm always good so that means I must always have treats!

A pigs hoof to help me with teething.

A folder with some paperwork, between you and me I'd love to chew up the papers! I'm told they're important so I'll try my best not too.

Other miscellaneous items.

Please don't leave me unsupervised with my collar on , with my toys or my pigs hoof for my safety.

I'm not fully protected until I have ALL my vaccinations , so please remember to not take me to heavy traffic areas incase I pick something up.

It will take me some time to get use to you and everything, I promise I will do my best and love you unconditionally. Thankyou for picking me to be apart of your family!
